

Welcome New Patient!

We want to personally extend a very warm welcome to our dental practice. We are proud to be military veteran owned and operated. We are currently accepting new patients and we are committed to doing everything possible to provide you with gentle, quality and state of the art dental care in a warm and comforting environment.

We named our practice "Hometown" because we are all from Ridgefield or at least the town next door. We want this practice to be your dental home. A place that you see as a second home with friends and family waiting for you!

This information can be very useful to you:

- Our practice performs a wide range of dental procedures including dental exams, cleanings, dental implant placement and restorations of implants, crowns, bridges, veneers, dentures and other cosmetic and emergency procedures. We are always available to discuss and explain these procedures.

- During your first visit we will listen carefully to your concerns and conduct a thorough exam to give you a starting "baseline" from which we can monitor your dental health and can note any changes as you continue to grow with our practice.

- If following your first examination we discover there is a need for restorative care we will sit down with you and discuss your options so you can make an informed choice regarding the best treatment options. You will always be part of the decision making process. We respect our patients and our goal is to provide you with the highest quality care in an atmosphere of mutual trust.

- Our practice is based on word-of-mouth referrals and we often treat many members of the same family and often our best patients are referred by friends and other family members.

- We know emergencies always occur during the worst times and almost never happen during regular business hours. As a result, I live in town and can be reached after hours at all times. Simply call our office at 203-431-3901. Please leave a message with the answering service and a member of our team will receive the message within minutes. I will then call you back as soon as possible. However, if an emergence is no longer limited to your mouth please visit the nearest emergency room and then return to us for follow up care.

We would like to thank you for choosing our practice and look forward to serving all of your dental needs. If you have any questions, please feel free to call anytime 203-431-3901.

Sincerely,

Nick Ritzcovan, DDS

P.S. - Please visit our website at [www.htdental31.com](http://www.htdental31.com) and complete our medical/dental history questionnaire if you have not already done so. Feel free to fill out the preprinted forms included in this packet if this is easier. This information is necessary to treat you safely and provide you with the best possible advice and service.
